

9. Social Networking for parents

Social media is becoming a large part of the world we live in and as such at Sunshine Children's Centre we need to make sure we protect our children by having procedures in place for safe use.

We use Facebook to share pictures of the activities the children have accessed at nursery. In order to safeguard children we will:

- Ensure no photographs of the children are displayed on our Facebook posts
- Not allow others to post on our Facebook page, i.e. only management can post on the page, only parents / family / carers who have been invited to join the group can view and comment on the posts
- Monitor comments on all posts and address any concerns immediately.

Parents and visitors' use of social networking

We promote the safety and welfare of all staff and children and therefore ask parents and visitors not to post, publically or privately, information about any child on social media sites such as Facebook, Instagram and Twitter. We ask all parents and visitors to follow this policy to ensure that information about children, images and information do not fall into the wrong hands.

We ask parents **not to**:

- Send friend requests to any member of nursery staff
- Screen shot or share any posts or pictures from the nursery on social media platforms
- Post any photographs to social media that have been supplied by the nursery with other children in them (e.g. Christmas concert photographs or photographs from an activity at nursery)

We ask parents to:

- Share any concerns regarding inappropriate use of social media through the official procedures (please refer to the partnership with Parents policy, Complaints procedures and Grievance policy).

This policy was adopted on	Signed on behalf of the nursery	Date for review
